OR

Bring in \$15 and teacher will provide the above

I will be shopping for these same items during the summer as they go on sale. Usually school supplies on sale change by the week. What I do not need I will return after the first week. Families may choose to get the supplies on their own, or may bring in \$15.00 per student and I will provide the above. It is less expensive in bulk, and if there are any remaining funds, they will be put toward buying tissues or class materials that run out during the year. I am hoping this option will make the beginning of school more affordable for most and less trouble for you. For me, it guarantees I am ready to go on the first or second day of school.
