- Student & staff check-in

- Building Nurse
- COVID Resource Coordinator
- Custodial
- Safety Team

COVID Resource Coordinator to update log

Seal room for 24 hours if possible, and clean and disinfect

NO ACTION REQUIRED

Follow health office protocol

Testing Process

Any individual within the school facility who screens positive for COVID-19 exposure or symptoms, will be immediately sent home with instructions to contact their health care provider for assessment and testing.

Orange County COVID-19 Testing Locations and Resources

The District Medical Director has consulted with leadership at Emergency One Urgent Care Center to establish priority testing for staff and students.

Emergency One Urgent Care

306 Windsor Highway,
 New Windsor, New York 12553
 845-787-1400

Students who are being sent home because of a positive screen (e.g., onset of COVID-19 symptoms) will be immediately separated from other students and supervised until their parent/legal guardian or emergency contact can retrieve them from school.

The Health Resource Officer will immediately notify the local health department regarding a confirmed, diagnostic positive case for COVID-19.

Return to Work or School

The Health Resource Officer will consult with the local health department(s), about the requirements for determining when individuals, particularly students, who screened positive for COVID-19 symptoms can return to the in-person learning environment.

At a minimum the student/staff member will provide documentation from a health care provider following evaluation, negative COVID-19 diagnostic test result, and symptom resolution, or if COVID-19 positive, release from isolation.
